

Malvern Inventors Club

Malvern Inventors Club Newsletter - October 2006

Next Meeting Date: 9th November 2006 @ The Learning Zone - 7:00pm

The November and subsequent meetings will be held back in 'The Learning Zone'. Thanks to Ian for the use of his kitchen for the past few meetings.

At *Homes 4 Now* (on the 14th & 15th of October) Malvern Inventors had their own stand.

There was a marquee at *Homes 4 Now* with exhibits showing how to live a greener life.

At the *Homes 4 Now* there were exhibits on...

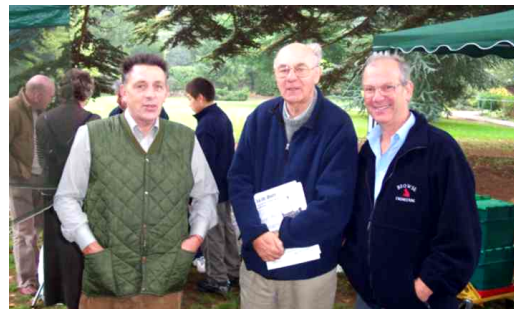

- Energy efficient homes: Insulation advice and grants information, tips on how to reduce your fuel bills.
- Energy-saving technologies: Exhibitions of solar panels, wind turbines, water-power, heat exchangers, geo-thermal technology and much more.
- Recycling technology: Ideas to 'slim-your-bin' by recycling more.
- Greener gardening: Greener garden designs; home composting, tools and tips for self-sufficiency in the garden.

On display on the Inventors stand were Malcolm's 'Rotaire Lawn-Dry™', and John Taylor's 'Taylor's Maid Waste/Compost Container'. They both had enquiries from potential customers.

A special thanks to Ian Browse, John Taylor, Ashley Mayes, Lawrence Mayes, Dan Heeks and Malcolm Victory for helping out at The Inventors Club's stand.

Visitors from The 'Black Country Inventors Club' were at *Homes 4 Now* and visited the 'Malvern Inventors Club'

There was an [article](#) in the *Malvern Gazette* which mentioned the Malvern Inventors club.

There is a Sky programme 'The Big Idea' which is a show where teams battle it out with their inventions to win a cash prize.
